### INTRODUCTION

I have been working as a website developer within the computing sector for many years in both front-end and back-end development. I have created a range of websites personally as a freelancer. I worked as part of the development team at Quuu Ltd to completely redesign and rebuild the Quuu & Quuu Promote Apps in 2019. Since leaving Quuu I have developed a range of platforms & websites for clients across the UK as well as developing my own side projects.

### SKILLS

<ul style="list-style-type: none"><li>● LARAVEL 6 - 8</li><li>● LUMEN</li><li>● LARAVEL LIVEWIRE</li><li>● LESS, SCSS, CSS, TAILWIND</li><li>● PHP</li><li>● RESTFUL API'S</li></ul>	<ul style="list-style-type: none"><li>● ALPINE JS</li><li>● LINUX</li><li>● GIT</li><li>● AWS</li><li>● SQL, REDIS</li><li>● Learning: Vue JS &amp; Electron JS</li></ul>

### EXPERIENCE

#### **WE ARE MOTION** - *Director / Freelance*

January 2020 - Present

- I am the director and senior website developer at We Are Motion. Here I have worked with a range of influencers, charities, businesses and individuals to develop secure internal systems, subscription platforms and websites.

#### **Quuu** - *Laravel Developer*

2017 - January 2020

- At Quuu I was responsible for the development and maintenance of their SaaS apps, Quuu & Quuu Promote as well as their admin panel for managing the apps. I worked with another developer to fix bugs, maintain the apps and develop a range of new features.

---

## **Loud Crowd Agency** - *Senior Developer*

2015 - 2017

- At Loud Crowd I was the senior / lead website developer helping to manage projects and develop websites with a small 3 man team. During my time at Loud Crowd I developed websites using Wordpress CMS & Laravel.

## **EXAMPLES OF PROJECTS**

### **AWQMS** - *Quality Management System*

Laravel, Alpine JS, Laravel Livewire, AWS, DO, Linux, Redis, jQuery, opcache

The internal quality management system developed for AW Aluminium features a whole range of functionality including stock management, order management, plant hire, RAMS generation, data handling, accounting, and much more...

### **ALLYLAW.CO.UK** - *Video Subscription Website*

Laravel, Laravel Spark, Laravel Livewire, SQL, Redis, opcache, AWS, Cloudflare Stream

I worked closely with influencer Ally Law to develop a video subscription website to allow him to provide video content to his followers that YouTube won't let him upload. The website uses laravel spark & stripe for the billing as well as laravel livewire for features such as the comment section.

### **LINKUP** - *Side Project*

Laravel, Laravel Livewire, Alpine JS, API's, SQL

Linkup is a small app for tracking your cryptocurrency alt coins. Linkup pulls data from a range of sources to provide the user with an accurate price for any coins their wallets can't display the value for.
